Dear Parent or Guardian,

In the spring of 1999, the Illinois Legislature passed SB0527 and SB0529, Amendments to the Structural Pest Control Act and the Illinois Pesticide Act that affect how pests, mice, ants, etc., are controlled in schools.

All Illinois schools are required to develop a pest process called Integrated Pest Management (IPM), effective August 1, 2000. Schools are required to notify staff, students and parents prior to certain types of pest control applications. The Assistant Director of Operations, Bill Weiss is the Designated Person to oversee the pest management operations and record keeping.

Integrated Pest Management places emphasis on inspection and communication with the school administration. The focus of the program is to identify and eliminate conditions in the school which would cause pests to be a problem. Applications of pest control materials are made only when necessary to eliminate a pest problem. If it becomes necessary to use any pest control products, other than traps or baits, notice will be posted on the website. The only exception to the two-day notice could be if there was an immediate threat to health or property.

Thank you,

Glen Michelini
Director of Operations

**COMMUNITY CONSOLIDATED
SCHOOL DISTRICT 21**

TO: All Parents of Students in School District 21 Schools

FROM: Bill Weiss, Assistant Director of Operations

DATE: May 5, 2026

SUBJECT: NOTIFICATION OF WEED CONTROL APPLICATION

Community Consolidated School District 21 will be performing periodic weed control applications to all school district properties beginning in May 2026 through October 2026. On the day of the application, notification yard markers will be posted at each location.

If you have any questions, please contact Bill Weiss. Thank you.
